

Day Program Re-Entry: Yes or No? Checklist of Considerations

A collaboration of all chapters of The Arc in Colorado

The Arc chapters cannot recommend that an individual return or not return to their day programming. These decisions need to be made in a person-centered way, and we've created tools to aid you in the decision-making process. None of this information should be construed as advice.

The following is a checklist that serves as a tool when considering a transition back to Day program and/or other options for providing meaningful daytime activities. You may wish to contact the Day program to arrange a time to visit (make sure clients will be in the building). Please use this checklist in conjunction with the person-centered plan and the contextual document to make an informed and person-centered decision about day program re-entry.
